

NEWS: Pioneering Sustainability in Scrap Metal Recycling

24/01/2024

Riga, Latvia -

SIA TM Recycling, a leading name in the scrap metal recycling industry, proudly announces its groundbreaking achievement of Carbon Footprint ISO 14064-1 verification. This recognition, verified by Bureau Veritas Latvia, solidifies SIA TM Recycling's commitment to sustainability and environmental responsibility, making it the first in the industry to attain this significant milestone alongside ISO 9001 & 14001 certifications.

A New Era of Environmental Leadership

In an era where carbon emission control is paramount, SIA TM Recycling emerges as a trailblazer, setting new standards for the metal-producing industry. The Carbon Footprint ISO 14064-1 certification underscores the company's dedication to measuring, monitoring, and mitigating its environmental impact, aligning with global efforts to combat climate change.

Unparalleled Commitment to Quality and Sustainability

With ISO 9001 & 14001 certifications already in place, SIA TM Recycling has consistently demonstrated a commitment to quality management and environmental sustainability. The addition of the Carbon Footprint certification further reinforces the company's position as a reliable partner for businesses seeking environmentally responsible solutions in the metal recycling sector.

Strategic Collaboration for a Greener Future

This achievement positions SIA TM Recycling as the ideal partner for forward-thinking enterprises in the metal-producing industry. By choosing SIA TM

Recycling, businesses not only gain access to top-tier scrap metal recycling services but also contribute to a more sustainable and environmentally friendly future.

Quotes from Company Leadership:

“We are immensely proud to lead the industry by achieving the Carbon Footprint ISO 14064-1 verification. This recognition reflects our unwavering commitment to environmental responsibility and sets a new standard for sustainability in the metal recycling sector.” – Jochen Klein – Senior Director, Business Operations

“SIA TM Recycling is dedicated to providing our clients with environmentally responsible solutions. Our triple certification – ISO 9001, 14001, and now Carbon Footprint ISO 14064-1 – exemplifies our commitment to quality, sustainability, and the well-being of our planet.” – Diana Smirnova – Operations and Compliance Director

Expansion Announcement: TM Recycling Unveils New Branch in Rumbula, Latgale Suburb, Riga

24/01/2024

TM Recycling is pleased to announce the establishment of our latest branch in the Rumbula, operational since the end of October 2023. This strategic expansion aims to enhance accessibility and service efficiency for our valued customers in the region.

Key Features of Our New Rumbula Branch:

- **Location:** Our state-of-the-art collection point for scrap metal is conveniently situated at Riga, Rumbula.

- **Contact Information:**

- *Telephone:* +371 29578079
